

### **Call for Workshop Proposals**

**Sixth International Joint Conference on Ambient Intelligence (AmI-15)  
Athens, Greece, November 11-13, 2015, <http://www.ami-conferences.org/2015/>**

The European Conference on Ambient Intelligence is the prime venue for research on Ambient Intelligence, with an international and interdisciplinary character. It brings together researchers from the fields of science, engineering, and design working towards the vision of Ambient Intelligence.

AmI-15 will provide a meeting point for each of these communities, aiming for intensive networking and scientific debate, and shaping visions of the future.

Workshops are an opportunity to meet in the context of the Conference and discuss a common theme and/or common topics of interest. In particular, emerging and future areas in AmI are particularly suitable to the Workshop format. All types of Workshop proposals will be considered, including thematic Workshops, e.g. based on real-world datasets, which will provide researchers with an opportunity to present novel ideas for services based on the data. Overall, Workshops should have the potential to move the field forward and suggest promising directions.

Workshops could be either half-day (3 hours per day) or full day (6 hours per day). It is envisaged that all Workshops at AmI-15 will be held in November 11, 2015.

Prospective Workshop organizers are invited to submit a proposal for consideration. If the proposal is accepted, it will be publicized on the Conference Web site and potential participants will be invited for paper submission. The reviewing process and acceptance criteria will be handled by the Workshop organizers. Workshops are only open to people accepted by the Workshop organizers and registered for the Conference. A minimum required number of attendees for each Workshop will be defined by the Conference Committee. Workshop organizers will be expected to set up an external Web page delivering all the necessary information for those interested.

Please submit a (max two pages) proposal using the following headings:

1. Workshop title.
2. Organizers, Affiliations and Contact details.
3. Brief description of the Workshop topic.
4. Rationale (why this topic is of interest?).
5. Experience in organizing Workshops/Conferences.
6. Outline of plan for organizing the Workshop including, for example, publicity, TPC recruitment, review procedures, expected number of participants, profile of participants and any other information deemed relevant.

The Workshop proposal submissions should follow the Springer CS proceedings instructions available at <http://www.springer.com/computer/lncs?SGWID=0-164-6-793341-0>.

On acceptance of their Workshop proposal, organizers will be asked to prepare a two-page outline for inclusion in the Conference proceedings published by Springer. Final camera-ready versions of accepted Workshop proposals must be accompanied by a signed copyright form.

### **Important Dates**

Proposal Submission: **April 10, 2015**

Notification of Acceptance: April 24, 2015

The timeframe for Workshop submissions is up to the organizers, but our recommendation is:

Workshop paper submission deadline: July 15, 2015

Notifications to Workshop authors: August 15, 2015

Workshop paper camera ready: September 1, 2015

### **Workshop Proceedings**

Upon agreement with all accepted Workshop organizers, the proceedings from all Workshops will be compiled into a single volume and published as an online CEUR Volume (see <http://ceur-ws.org/> for further details), indexed in SCOPUS. As such, Workshop organizers must ensure that their call for papers and submission guidelines adhere to the publication policies of CEUR, especially paying attention to format and copyright requirements detailed at <http://ceur-ws.org/HOWTOSUBMIT.html>.

### **Further Information**

Submission of proposals to the workshop should be made using the conference review system: <https://easychair.org/conferences/?conf=ami15>

Enquiries to the workshop chairs should be made by email to the following addresses:

Dr. Andreas Komninos  
University of Strathclyde  
andreas.komninos [at] strath.ac.uk

Dr. Vassilis Koutkias  
INSERM, Paris, France  
vasileios.koutkias [at] inserm.fr
